

Ohio Job Creators Endorse Senate Bill 58

Over 350 Ohio employers, who collectively have nearly 500,000 Ohioans on their payrolls, are calling on Governor John Kasich and the legislature to pass common-sense reform that will reduce the cost of state-mandated energy efficiency programs.

Senate Bill 58 will address the rising costs of mandated energy efficiency programs that are cutting deeper into companies' budgets and make it harder to grow their businesses.
